

PD[®] TEXTURE COAT DECORATIVE CONCRETE COATING

PD[®] Texture Coat

The PD[®] Texture Coat is a decorative concrete overlay system designed for new or existing concrete surfaces. It provides a durable and low maintenance wear surface for exterior and interior concrete and is available in multiple standard colors or custom colors and textures. Use special colors, textures and two-tone finishes to create borders, designs and a truly unique look and feel for each project.

The PD Texture Coat will enhance the look and value of dull existing concrete at an affordable price, excellent for reconstruction and tenant-improvements. PD Texture Coat provides a cool, decorative, skid-resistant coating perfect for concrete pool decks, walkways, sidewalks, patios, and driveways as well as interior floors, stairs, and entry ways, or to convert a run-down slab into a beautiful floor.

System Benefits:

- Extensive Finish Options
- Durable
- UV Resistant
- Tapers to 0"
- Wide Variety of Performance Sealers
- Cost Effective
- Non-Skid

Ideal For:

- Exterior • Interior • Pool Decks • Driveways • Walkways • Patios

PIGMENT SEALER GS88-1 STANDARD COLORS

* Available in cementitious tint vials. Actual colors will vary. Color appearance is affected by lighting, surface texture and method of application. Final color approval should be selected from physical samples. Custom colors available.

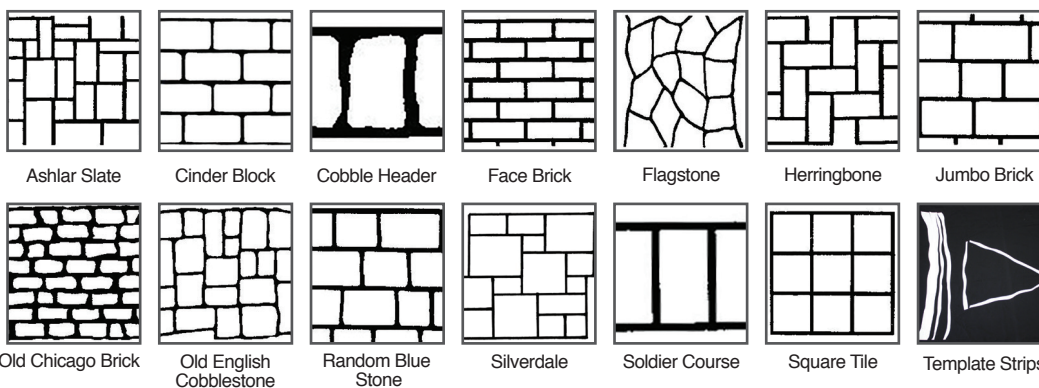

PD[®] STAIN STANDARD COLORS

Pli-Dek's water based stains are a unique line of non-acidic polymers designed to penetrate a concrete surface to create vibrant color accent for virtually any concrete surface. The PD Stains offer endless design opportunities for the Pli-Dek polymer cement finishes. Once sealed with the recommended Pli-Dek clear sealer, the PD Stain offers a UV resistant antique effect that offers a permanent enhancement for concrete surfaces.

Colors will vary. Color appearance is affected by lighting, surface texture and method of application. Final color approval should be selected from physical samples. Custom colors available.
